

41030

Information

The instrument provides an accurate guide to determining the right period for fruit harvesting and monitors maturation progress during cold storage (pulp softening).

Technical Specifications

Technical data:

- Measuring range, big tip: 0.5-12 kg/cm² (×10⁵ Pa)
- Measuring range, small tip: 1-24 kg/cm² (×10⁵ Pa)
- Resolution: 0.1 (11 mm tip) / 0.2 (8 mm tip)
- Accuracy: ±0.1
- Index unit: kg or lb
- Inserting Depth of pressure head: 10mm
- Dimensions: 140×60×30mm
- Weight: 0.3 kg

Delivery contents:

- fruit penetrometer
- 2 tips: 8 mm and 11 mm
- hard box

Item-No.: 41030
